### **OC11.10.1.1**

**Monitoring of User's Equipment** is normally continuous or continuous for periods of time, and involves the analysis of the output of **Monitoring** equipment (as required or permitted under the CC and/or relevant **Connection Agreements** and/or **SSS Agreements** and/or the **MC**), **Generator Aggregator System Operator Agreement (GASOA)** or by such other methods as the **TSO** shall reasonably determine are appropriate in the circumstances. It does not require advance notification from the **TSO** to **Users**.

### **OC11.12.1**

The **TSO** may, if it reasonably considers that there may be an issue of non-compliance by the **User**, carry out an **Investigation** to acquire or verify information relevant to **User's Equipment** design, operation or connection requirements under the **Grid Code**, **Connection Agreements**, **Generator Aggregator System Operator Agreement (GASOA)** and **System Support Service Agreements** between **Users** and the **TSO**.
